

# “MOONLIGHT SUN-ATA”

**SPONSORED BY:  
GIANT EAGLE**

Janet is stay-home/financial manager of Hy-Tech Controls, Inc. She has been ballooning for 13 years and logged over 410 hours. She is a member of the NOBPA, NABA, AOPA, EAA and BFA. Janet always wanted a balloon with the moon and sun in its name, like the song “Moonlight Sonata”. Her balloon depicts a royal blue night sky with celestial designs. She says it’s hard to pick a most memorable flight, as they are all memorable, but flying over Epcot in Florida was pretty cool.
